Principais competências

Desenvolvimento full stack

Angular (Framework)

Node.js

Kauã Santiago

Web Developer Full-Stack | Angular | React.js | Javascript |
ECMAScript 6+ | Typescript | Node.js | MySQL | PHP | TDD(Test-
Driven Development) | HTML5 | CSS3 | Tailwind CSS | Vitest
Barreira, Ceará, Brasil

Resumo

In Agust of 2021 I had my first contact with programming, studying
HTML, CSS and Javascript, I could discover the programming world
and since that experience I was impressed with that world.

Since then, I am focused in beeing a Full-stack programmer
with Angular, Node.js, MySQL, Typescript and others relationed
technologies, learning more and more about this world.

I love work as a Full-stack web developer, because I can have
more contact with others technologies and problem solutions of
technologies. I has experience em Amazon Web Service and use
a lot of Database, MVC, Javascript, Typescript, GIT, Github, Gitlab,
Angular and Node.js all days.

Futhermore, I also have experience with PHP, Laravel, React, Trello,
Figma, Notion and, currently, I'm learnig about C in my college. And I
have knowledge in Test-Driven Development (TDD) and I always try
keep up updated about the new technologies of the market.

Some of my hobbies are read, pretice sports - as volleiball and run -,
play video-games and watch animes.

Predominant skills:

- Full-stack development | Software Design with TDD | Reponsive
Design Development
- Angular | React.js
- Node.js
- PHP | Laravel
- Unit Testing (Vitest and TDD)
- Javascript (ES6) | Typescript
- Git version control

- REST API
- Github | Gitlab
- HTML5 | CSS3 | TailwindCss
- SQL | MySQL

Tools:

- Visual Studio Code
- XAMPP
- DBeaver
- Figma
- Trello | Notion
- Canva

Soft Skills:

- Easy comunication
- Problems solutions
- Agile Methodology/Kanban
- Easy learning
- Team work and collaboration

I work focused on the best results and I have a good analytical ability and comunication
